RE: Cessation Order MC-05-01-16(1)

To Whom It May Concern:

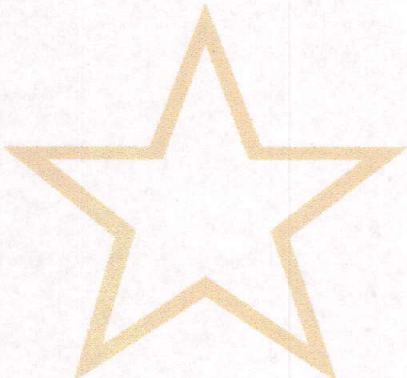

On September 22, 2005 a mine inspection was conducted by Lynn Kunzler at our Peoa quarry in Brown's Canyon, near Park City. Based on his findings we were issued a cessation order for "Conducting Mining related activities outside permitted and bonded area".

We have reviewed the map that was included with the Cessation Order. While the maps indicate that we are out of the boundaries in a few areas, we are currently only utilizing 22.43 acres, (including .78 reclaimed acreage), of the 25.7 acres we have bonded. In addition to this, we also feel that the map we were supplied with and the maps that we have submitted do not agree with each other. We would like request an informal hearing to resolve this matter and address some of our concerns.

Please let us know what when we can schedule that appointment as well as any other information that we will need to provide. You may contact either myself, or Lon Thomas with any questions.

Sincerely,

Marie Ludwig  
Assistant to the President
